Risk Levels	Little to None	Minor	Moderate	Major	Extreme
-------------	----------------	-------	----------	-------	---------

Weather Key Points

Regional Operations Center

Western Region

Monday, October 17

- A warming trend begins Monday with temperatures peaking mid-week.
 - Sierra Nevada and southern Cascades temperatures across Northern California are expected to remain above normal through the week.
- Santa Ana winds with gusts of 40-50 mph are possible across the southern mountains on Tuesday and Wednesday
- Dry and warmer weather expected through much of the week, before rain chances increase across central and northern California towards the end of the week and over the weekend.
 - Gusty winds are possible over the weekend across southern and central California

Weather Outlook (6-14 Days)

Regional Operations Center

Western Region

Monday, October 17

6-10 Day Outlook (October 22 – October 26)

Temperatures

- Below normal temperatures are favored statewide

Precipitation

- Above normal precipitation is expected statewide

8-14 Day Outlook (October 24 – October 30)

Temperatures

- Below normal temperatures are favored statewide

Precipitation

- Above normal precipitation is expected across much of the state, with near normal precipitation favored across southwestern California

SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

2022 May Monkeypox Virus

On 08/01/22, the Governor proclaimed a State of Emergency to support the State's response to Monkeypox. A copy of the proclamation can be found [here](#).

The California Department of Public Health (CDPH) activated the Medical and Health Coordination Center (MHCC) at Level 3 (low) in response to the 2022 May Monkeypox Virus event on 05/24/22; and increased the activation to Level 2 on 07/18/22.

- Hours of Operation: Monday to Friday, 0800 hours to 1700 hours until further notice.

Emergency Management Assistance Compact (EMAC)

- 2458-RSA-11577, Florida - Two (2) Mass Care Coordinators from CDSS

Cal OES INLAND REGION

- Please see the attached Situation Summary for information regarding the 2022 September Wildfires Event and California Severe Weather Debris Flows.

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

- Please see the attached Situation Summary for information regarding the 2022 September Wildfires, Severe Weather, and Debris Flows.

COVID-19 SUMMARY

Coronavirus Disease 2019 (COVID-19)

On 03/02/20 at 0700 hours, the Cal OES State Operations Center (SOC) activated at Level 1 in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

SMARTER Plan

On 02/17/22, Governor Newsom unveiled the "[California SMARTER Plan: The Next Phase of California's COVID-19 Response](#)". The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions.

CDPH Statewide Travel Advisory

- For more information: [CDC Travel Guidelines](#)

Confirmed California COVID-19 Cases - Per California Department of Public Health Tracking COVID-19 as of 10/12/22 at 1630 hours:

- 10,458,792 total confirmed cases.
 - 21,329 Delta
- 95,604 total deaths.
 - 190 Delta
- Please see the most recent "Situation Report - COVID-19" attachment for additional details.

FIRE ACTIVITY

Cal OES INLAND REGION

Mosquito, Vegetation Fire, El Dorado and Placer Counties

Location: Oxbow Reservoir, 3 miles ESE of Foresthill

Jurisdiction: State/Federal DPA, SRA/FRA, Tahoe National Forest

Per Cal OES Duty Officers and ICS-209 as of [10/17/22](#) at [1000](#) hours:

- 76,788 acres brush and timber, 95% contained
- Minimal fire behavior observed
- Suppression repair continues on portions of the fire
- Power and water infrastructure remains threatened
- American River watershed threatened
- Commercial timberlands threatened
- Historical, cultural and natural resources threatened
- Road, area and trail closures in effect
- CAIIMT 12 in command
- Federal air and ground resources committed

Please see Situation Summary for information regarding the 2022 September Wildfires, Severe Weather, and Debris Flows.

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Enforcement Missions

- **2022-LAW-83370, On 10/15/22, about 1930 hours**, CSWC received a call from the AFRCC regarding a PLB activation at coordinates 34.113409, -116.867779 which plots to an area off Falls Creek Road between Saxton Trail Campground and Dollar Lake Saddle in San Bernardino County. About 1940 hours LDO contacted AFRCC who advised they received a PLB activation from a group of 36 UC San Diego students who are on school sponsored camping trip. The PLB activated is not a two-way communicator. About 1945 hours, LDO contacted the UCSD faculty member who organized the trip. The 36 students are training to become “trip leaders”. They are broken into three groups of 12. Each of the groups has two trip leaders. Each of the groups have one PLB and one satellite phone. Additionally, UCSD was only able to provide one of the three satellite phone number which gets no response. The three locations where the groups were to stay at are Saxton Trail Camp, Trails Forks campground, and High Creek campground. The faculty member advised the trip leaders and students were clearly instructed to only active the PLB in an emergency situation. During the time of the activation there were significant thunderstorms forecasted for the area. About 2000 hours, LDO contacted San Bernardino County Sheriff's Office and provided all of the details associated with the PLB activation. About 2021 hours, LDO spoke with AFRCC who advised the PLB has entered “no detect” mode. No detect mode indicates either the device has been manually shut-off, the battery is dead, or the device signal is blocked. About 2030 hours, LDO notified San Bernardino County Sheriff's Office dispatch about the “no detect” status of the device and the possible reasons. About 2108 hours, AFRCC advised the device continues to remain in “no detect” status. At About 2120 hours, LDO spoke with San Bernardino Sheriff's Office who advised they were sending deputies to the trailhead and evaluating an appropriate SAR response given the deteriorating weather conditions. About 2217 hours, AFRCC advised of a second activation from the PLB at coordinates 34.125494, -116.884326 which plots on the south face of the mountain east of Anderson Peak (not on a trail). According to AFRCC it is with 400 feet accuracy. LDO contacted San Bernardino County Sheriff's Office and passed along the updated information. At 2345 hours AFRCC contacted LDO and relayed updated coordinates 34.120000, -116.872167. Coordinates were relayed to San Bernardino County Sheriff's Office. San Bernardino Sheriff's Office advised they have notified their aviation unit for a mission in the morning should the weather clear in addition to dispatching ground searchers. **UPADTE: On 10/16/22 at 0309 hours**, AFRCC contacted LDO to advised device was shut-off or lost signal at 0109 hours. Shortly thereafter, San Bernardino County Sheriff's Office advised they were with a group of four individuals who made it out. They learned there is a hypothermic female with 6 other party members. The group was able to get updated GPS coordinates which plots closer to Saxton Trail Camp (one of the original locations provided by UCSD) and dispatched 5 SAR team members to assist. **UPDATE: On 10/16/22, about 0727 hours, San Bernardino County SAR advised contact was made by ground crews with the 7 individuals. A plan was being developed to rescue the hypothermic student. About 1237 hours, San Bernardino SAR advised Air Rescue was unable to hoist the victim due to high winds and a team would litter her out. Mid-way through the rescue it was learned the student was able to walk on her own. At 1459 hours, San Bernardino SAR advised the hypothermic student was off the trail and transported to a local hospital for evaluation. LDO notified AFRCC the mission had been concluded. LDO spoke with the UCSD trip coordinator who advised all of the student groups were safe and were off the trail. The group with the hypothermic student had encountered significant thunder/lightning when one of the students became hypothermic. The trip coordinator advised the student was doing well. Mission Closed**

Cal OES MISSION TASKINGS

Cal OES Missions

- Nothing significant to report.

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
